## Omega Neo

### HIGH PRESSURE WITHSTANDING CAPACITY.

Racold has helped you begin your day with this spurt of refreshing energy for the last 60 years. A fully owned subsidiary of Ariston Thermo Group, the world's leading thermic solutions company, Racold received Best Performed Manufacturer on Installation of Solar Water Heaters for 2 years in a row awarded by the MNRE, Government of India for the Best Service and Dealer Network in 2014.

Racold is the first water heater brand in India to be recognized by the Bureau of Energy Efficiency (BEE) successively for the last 9 years. It has won the "Energy Conservation Award" from 2010 to 2016 followed by the "Most Energy Efficient Appliance of the Year" award in 2018.

|   |  |  |
|---|--|--|
|  <p>Enameled coating Inner Tank resisting corrosion from hard water-Longer life.</p> |  <p>High pressure withstanding capacity (up to 6 bar) makes it suitable for pressurized applications.</p>           |  <p>Italian design collector with textured glass and water proof collector body with high structural strength for dependable performance and high durability.</p> |
|   |  <p>Magnesium sacrificial anode protects tank from corrosion by forming a layer of magnesium on the inner tank.</p> |  <p>Multi-function Safety Valve makes your solar water heater the safest with pressure relief, non-return, anti-vacuum and drainage function.</p>                 |
|   |  <p>Rust proof outer body prevents corrosion, leaving no room for rust.</p>   |  <p>5 year warranty on tank and collector ensuring dependable service.</p>  |

## Omega Neo

### Best performer under high pressure

| CHARACTERISTICS   | SPECIFICATION   | ADVANTAGE   |
|---|---|---|
| Outer body  | Zincalume Sheet   | Non-corrosive, durable, UV resistant and long life  |
| Inner container material                                      | Mild Steel  | High grade stainless steel, corrosion resistant, durable and long life  |
| Special protection for inner container                        | Enameled Coating  | Corrosion resistant, durable and long inner tank life coatings on MS  |
| Pressure withstanding capacity                                | 6 bar for tank & 8 bar for collector                            | Capable of withstanding high operating pressure   |
| Safety valve  | Italian – 4 in1 Multifunctional Safety Valve                    | Makes your solar water heater the safest with pressure relief, non-return, anti-vacuum function and drainage function |
| Container insulation  | High density injected PUF with automatic machines               | Superior heat retention   |
| Anode   | Special Magnesium anode   | Additional safety against corrosion ensuring longer life of inner container   |
| Collector Frame for glass retention                           | Italian design, glass bonded construction                       | Consistent performance, complete protection against water leakage   |
| Glass Collector   | High performance textured toughened glass                       | Maximize solar water heater performance   |
| Box construction  | Single box structure in Zincalume sheet                         | Sturdy, durable, UV resistant and long life   |
| Electrical Backup (Optional) Thermostat for electrical backup | Tubular, 99.9% pure copper with Italian thermostat with cut-out | Ensures constant hot water, all throughout the year   |
| Inner Container Warranty                                      | 5 years   | Peace of mind   |
| Collector Warranty  | Copper-5 years   Aluminum- 7 years                              | Peace of mind   |
